EDUCATION

Texas Southern University

Houston, TX

*Bachelor of Science in Computer Science; **Expected Graduation Spring 2028***

August 2024 – Present

Honor Roll (Fall 2024- Fall 2025)

Relevant Coursework

INTRO TO PROGRAMMING USING C++, Java, Python, JavaScript, SQL, Physics I, Advanced OOP with C++

PROFESSIONAL EXPERIENCE

Code Ninjas

Houston, TX

Coding Instructor

December 2024 – October 2025

- Taught foundational programming concepts to students using engaging, project-based languages like JavaScript and Scratch, which resulted in increased proficiency in programming.
- Fostered problem-solving skills and critical thinking by organizing hands-on coding challenges and games, resulting in enhanced student engagement and analytical abilities.
- Provided mentorship and personalized guidance to young learners, helping them develop confidence in STEM fields and encouraging long-term interest and growth in these areas.

TSU Summer Undergraduate Research Experience - Data Science

Houston, TX

Research Assistant

May 2025 – July 2025

- Applied supervised machine learning models (Logistic Regression, SVM, Decision Trees, Neural Networks) to classify alloy phases from material composition data.
- Achieved up to 63 percent accuracy with Multi-Class Logistic Regression using the Softmax function.
- Visualized model results and performance using bar graphs, confusion matrices, and exploratory data analysis.
- Collaborated with faculty mentors and peers to present findings via a research poster and presentation at the SURE Symposium.
- Gained hands-on experience with NumPy, Pandas, Matplotlib, and Scikit-learn in a scientific computing environment.

TSU Residential Life and Housing

Houston, TX

Residential Assistant

January 2026 – Present

- Served as a primary point of contact for residents, addressing concerns and resolving conflicts professionally.
- Enforced university policies while maintaining a safe, respectful, and inclusive residential environment.
- Assisted in planning and facilitating residential programs to increase student engagement.

PROJECTS

High Entropy Alloy Machine Learning Research

Houston, TX

Research Assistant

May 2025 – July 2025

- Leveraged Python and advanced machine learning techniques to analyze complex materials data, develop predictive models that optimize alloy performance, and collaborated cross-functionally to deliver actionable insights for research advancement.

ORGANIZATIONS

Texas Southern Tigers Data Science Club (TigersDSC)

August 2024 – Present

Vice President

Texas Southern African Student Association (ASA)

August 2024 – Present

Fundraising Chair

National Society of Black Engineers (NSBE)

August 2024 – Present

Student Member
